CONTENTS

Volume 27 Number 1 February 1992

1 Interactive packaging as protection against photodegradation of the colour of pasteurized sliced ham *H. J. Andersen & M. A. Rasmussen* (DENMARK)

9 Studies on the recovery of proteinaceous substances from chicken heads. I. An application of neutrase to the production of protein hydrolysate *Krzysztof Surówka & M. Fik* (POLAND)

21 Validation of a time-temperature-integrator for thermal processing of foods under pasteurization conditions *M. Hendrickx, Z. Weng, G. Maesmans & P. Tobback* (BELGIUM)

33 The influence of water activity on thermal stability of horseradish peroxidase *M. Hendrickx, J. Saraiva, J. Lyssens, J. Oliveira & P. Tobback* (BELGIUM, PORTUGAL)

41 Physical texture as an indicator of processing conditions for canning low-acid artichoke hearts *Miguel Rodrigo, Manuel G. Garcia, Lola Ramirez, Antonio Martinez, Vincente Giner & José Safón* (SPAIN)

49 Effect of water hardness on cooking characteristics of cowpea (*Vigna unguiculata* L. Walp) seeds *Stella G. Uzogara, Ian D. Morton & J. W. Daniel* (UK)

57 Effect of temperature on chlorophyllase activity, chlorophyll degradation and carotenoids of Cavendish bananas during ripening *P. Thomas & M. T. Janave* (INDIA)

65 Effect of maturity and processing on bitter compounds in Thai tangerine juice *Athapol Noomhorm & Nittaya Kasemsuksakul* (THAILAND)

73 Esterification of polyunsaturated fatty acids with lipases from different sources *E. Lie & G. Molin* (SWEDEN)

77 A new hydroxy fatty acid from *Scindapsus officinalis* seed oil *Chirag D. Daulatabad & Abdurazzaque Mirjkar* (INDIA)

81 Growth of *Staphylococcus aureus* in fermenting tempeh made from various beans and its inhibition by *Lactobacillus plantarum* *M. Ashenafi & M. Busse* (ETHIOPIA, GERMANY)

87 Volatile flavour compounds of yoghurt *Abdullah M. Gaafar* (EGYPT)

93 Importance of redfeed level, fish size and roe content to the quality of roe capelin *J. R. Botta, K. M. Kennedy, J. W. Kiceniuk & J. Legrow* (CANADA)

99 Book reviews

Volume 27 Number 2 April 1992

111 European intercomparison on electron spin resonance identification of irradiated foodstuffs *J. Raffi. M. H. Stevenson, M. Kent, J. M. Thiery & J.-J. Belliardo* (FRANCE, UK, BELGIUM)

125 Detection of irradiation in scampi tails — effects of sample preparation, irradiation dose and storage on ESR response in the cuticle *Eileen M. Stewart, M. Hilary Stevenson & Richard Gray* (UK)

133 β-hydroxyacyl-CoA-dehydrogenase (HADH) differentiates unfrozen from frozen-thawed crawfish (*Procambarus clarkii*) and trout (*Salmo gairdneri*) meat *L. Hoz, Clara Yustes, José M. Camara, Maria A. Ramos & G. D. García de Fernando* (SPAIN)

137 Seasonal variation in the calibration of a microwave fat: water content meter for fish flesh *Michael Kent, Alexander Lees & Robert H. Christie* (UK)

145 Comparison of the main analytical methods used in quality control of tomato paste *Sebastiano Porretta, Luca Sandei, Paola Maria Crucitti, Giovanna Poli & Maria Gloria Attolini* (ITALY)

153 Ionized molecules reduce penetration of microwaves into food *Stephen F. Dealler, Nathaniel A. Rotowa & Richard W. Lacey* (UK)

159 Phase equilibria in the water-sucrose-sodium chloride system *Luis M. Gribaudo & Amelia C. Rubiolo* (ARGENTINA)

171 Preservation of minced pelagic fish by combined methods *José M. Aguilera, Ahdrés Francke, G. Figueroa, C. Bornhardt & A. Cifuentes* (CHILE)

179 Carotenoid loss in dried red pepper products *Dong Sun Lee, Syung K. Chung & Kit L. Yam* (KOREA)

187 Effects of modified atmospheres on textural and cell wall changes of asparagus during shelf-life *Helen P. Everson, Keith W. Waldron, John D. Geeson & K. Martin Browne* (UK)

201 Perceived taste of NaCl and acid mixtures in water and bread *Ulla Hellemann* (DENMARK)

213 Grain morphology and structure in relation to milled product quality in maize (*Zea mays* L.) *G. N. Raju, M. K. Bhashyam, H. V. Narasimha, S. Sreedhara Murthy & T. Srinivas* (INDIA)

221 Effect of fermentation on ionizable iron in cereal-pulse combinations *Malhireddy Indumadhavi & V. Agte* (INDIA)

229 Utilization of protein and energy from cooked maize: legume dishes in growing rats compared with a traditional Nigerian dish *Oyekanmi A. Oyeleke* (NIGERIA)

235 Book reviews

Volume 27 Number 3 June 1992

243 Review: Assessing and managing risk due to consumption of seafood contaminated with micro-organisms, parasites, and natural toxins in the US *Farid E. Ahmed* (USA)

261 Gill air analysis as an indicator of cod freshness and spoilage *Norval J. C. Strachan & Frederick J. Nicholson* (UK)

271 Deteriorative changes in pink perch mince during frozen storage *G. Vidya Sagar Reddy, L. N. Srikar & N. S. Sudhakara* (INDIA)

277 Muscle carotenoid content and colour of farmed rainbow trout fed astaxanthin or canthaxanthin as affected by cooking and smoke curing procedures *Georges Choubert, Jean-Marie Blanc & Corinne Courvalin* (FRANCE)

285 Instrumental and sensory tests of texture of cooked frozen french fries *M. Susan Du Pont, Andrew R. Kirby & Andrew C. Smith* (UK)

297 Influence of time-temperature history and strain history on the melt rheology of soy protein isolate at an elevated temperature *Nobuyuki Hayashi, Koichi Noma, Isao Hayakawa & Yusaku Fujio* (JAPAN)

305 Effect of processing and storage on rheological properties of fortified milk and curd systems *S. V. Ramana & G. Ramanathan* (INDIA)

313 β-lactoglobulin denaturation and aggregation reactions and fouling deposit formation: a DSC study *Simon M. Gotham, Peter J. Fryer & Andrew M. Pritchard* (UK)

329 Reduction of cyanide levels during anaerobic digestion of cassava *Nadine Cuzin & Marc Labat* (CONGO)

337 Solubility of amaranth seed proteins in sodium sulphate and sodium chloride: the main factor in quantitative extraction for analysis *Jorge Soriano-Santos, Setsuko Iwabuchi & Kenshiro Fujimoto* (JAPAN)

347 Process parameters for hydrocooling apricots, plums, and peaches *Ibrahim Dincer, Mustafa Yildiz, Mahmut Loker & Huseyin Gun* (TURKEY)

353 Prickly pear sheets: a new fruit product *Esam H. Ewaidah & Bakri H. Hassan* (SAUDI ARABIA)

359 Book reviews

364 Erratum

Volume 27 Number 4 August 1992

365 Lipid composition of light and dark flesh from sockeye salmon *Pamela J. Porter, D. E. Kramer & John M. Kennish* (USA)

371 Factors influencing the yield of free radicals in irradiated chicken bones *Nicholas J. F. Dodd, Jia Haishun, Jeremy S. Lea & A. John Swallow* (UK)

385 Mutagenicity of N-nitroso compounds in Chilean ham and sausages *Marcela Aranda, Ivan Triviño, Angelica Osorio, Jose M. Bastias & Orieta Roos* (CHILE)

391 Centralized bulk pre-packaging of pork retail cuts *Elna Scholtz, Jansie Krüger, Gerhard Nortjé & Raymond Naudé* (RSA)

399 Beef muscle osmotic pressure as assessed by differential scanning calorimetry (DSC) *Madeleine Bonnet, Ahmed Ouali & Jean Kopp* (FRANCE)

409 Kinetic model for osmotic dehydration and its relationship with Fick's second law *Ebner Azuara, Raul Cortes, Hugo S. Garcia & Cesar I. Beristain* (MEXICO)

419 Explosion puffing of bananas *S. A. Saca & Jorge E. Lozano* (ARGENTINA)

427 Use of ultrafiltration for preparing improved tomato pulp *Sebastiano Porretta, Giuseppe Carpi, Gianfranco Dall'Aglio & Claudio Ghizzoni* (ITALY)

435 Production of clear guava nectar *W. Y. Chan & Been H. Chiang* (ROC)

443 A kinetic study of salt diffusion in potato at high temperature *Hua Liu* (CANADA)

457 Post-harvest ripening in wax-coated Bocado mango *Marisol Castrillo & Alexis Bermudez* (VENEZUELA)

465 Kinetics of enzymatic hydrolysis of cassava flour starch — optimization and modelling *Krzysztof N. Waliszweski, Miguel Garcia Alvarado & Javier de la Cruz Medina* (MEXICO)

473 The yeast flora of stored ready-to-use carrots and their role in spoilage *Isabelle Babic, Ghislaine Hilbert, Christophe Nguyen-The & Joseph Guiraud* (FRANCE)

485 Book reviews

491 Erratum

Volume 27 Number 5 October 1992

493 Storage of common mushroom under controlled atmospheres *Guadalupe Lopez Briones, Patrick Varoquaux, Yves Chambroy, James Bouquant, Gilbert Bureau & Bernard Pascat* (FRANCE)

507 Controlled atmosphere storage to decrease physiological disorders in nectarines *Susan Lurie* (ISRAEL)

515 Analysis of the sugar content of fruit juices and drinks using ultrasonic velocity measurements *Norma I. Contreras, Peter Fairley, David J. McClements & Malcolm J. W. Povey* (UK)

531 Role of serum viscosity and of pulp contents in the vaccum belt drying of pure fruit juices *Enrico Maltini, R. Nani & G. Bertolo* (ITALY)

541 Influence of process variables on the drying of potato slices *T. Ronald, A. Magee & Carole P. D. Wilkinson* (UK)

551 Alcohol deterpenation of black pepper oil *Jorge A. Pino, P. Borges & R. Sanchez* (CUBA)

557 Effect of screw profile on extrusion-cooking of wheat flour by a twin-screw extruder *An-I Yeh & Shiuan-Jer Hwang* (ROC)

565 Hydration of heat-treated soy protein isolate and its effect on the molten flow properties at an elevated temperature *Nobuyuki Hayashi, Isao Hayakawa & Yusaku Fujio* (JAPAN)

573 Stabilized soymilk for ambient tropical storage: a preliminary report *Leslie M. Nsofor & Okwudiri Maduako* (NIGERIA)

577 Spoilage changes in the deep water fish, smooth oreo dory during storage in ice *Dorian N. Scott, Graham C. Fletcher, Judith C. Charles & Ron J. Wong* (NEW ZEALAND)

589 A method for the estimation of the culturing quality of dehydrated mycological media *Miroslav T. Bomar & Silvia A. Knöpfel* (GERMANY)

593 Utilization of pre-gelatinized tapioca starch in the manufacture of a snackfood, fish cracker ('keropok') *Swee Y. Yu & Shea L. Low* (MALAYSIA)

597 Comparison of six methylation methods for analysis of the fatty acid composition of albacore lipid *I. Medina, S. Aubourg, J. M. Gallardo & R. Perez-Martin* (SPAIN)

603 Book reviews

Volume 27 Number 6 December 1992

613 Editorial

615 Gelling properties of whey protein isolate: influence of calcium removal by dialysis or diafiltration at acid or neutral pH *Cecilia Lupano, Eliane Dumay & Jean-Claude Cheftel* (FRANCE)

629 Preliminary study of the influence of dextran on the precipitation of legumin from aqueous salt solutions *Galina E. Pavlovskaya, D. Julian McClements & Malcolm J. W. Povey* (UK, RUSSIA, USA)

637 Influence of starch retrogradation on the texture of cooked potato tuber *Tomasz Jankowski* (POLAND)

643 The effect of particle size of mince, and mesh size of dewatering cloth, on the properties of gels of washed whiting (*Merlangius merlangus*) mince *Rosemary J. Hastings & Morag H. Tavendale* (UK)

653 Mathematical modelling of the diffusion of ascorbic acid during water blanching of surface frozen potato strips *Julio A. Luna, Raul L. Garrote, Alberto Cardona & Jean P. Jeusette* (ARGENTINA)

661 Immobilized α-amylase from *Bacillus licheniformis:* a potential enzymic time–temperature integrator for thermal processing *Susanna De Cordt, Marc Hendrickx, Geert Maesmans & Paul Tobback* (BELGIUM)

675 Microorganisms and lipolysis in the ripening of dry fermented sausages *M. Luisa Garcia, M. Dolores Selgas, Manuela Fernandez & Juan A. Ordoñez* (SPAIN)

683 Hard-to-cook state in cowpeas—influence of pretreatment and cooking on electrolyte leakage solid-loss and water absorption *Keshun Liu, Robert L. Shewfelt, R. Dixon Phillips & Yen-Con Hung* (USA)

691 Detection of 2-dodecylcyclobutanone in radiation-sterilized chicken meat stored for several years *A. Victoria, J. Crone, John T. G. Hamilton & M. Hilary Stevenson* (UK)

697 Ochratoxin A and aflatoxins in 1989 Saudi wheat *Esam H. Ewaidah* (SAUDI ARABIA)

701 Dough mixing and breadmaking properties of quinoa-wheat flour blends *Gouri S. Chauhan, R. R. Zillman & N. A. Michael Eskin* (CANADA, INDIA)

707 Effect of *rabadi* fermentation of barley on HCl-extractability of minerals *Manju Gupta, Neelam Khetarpaul & B. M. Chauhan* (INDIA)

715 Evaluation of four high-protein rice-soy snack formulations *Yaakob B. Che Man, Mohamad N. B. Abdul Karim & Tan T. Kun* (MALAYSIA)

721 Letter to the editor: The aetiology of scombrotoxicosis *Michael N. Clifford & Ronald Walker* (UK)

725 Response *Farid E. Ahmed*
